

SAINT JAMES SCHOOL OF MEDICINE

TUITION - ANGUILLA

Our tuition makes medical education accessible to all.

TUITION

Tuition at Saint James is one of the most competitive in the Caribbean today. The majority of our affiliated hospitals also train students from medical schools in the U.S. or elsewhere in the Caribbean where tuition is double or triple that of ours. This means that you get the same quality of education without the financial burden of an enormous student loan debt. This enables graduates to enter their residency and future careers truly focused on the practice of medicine rather than the pursuit of money to pay off their student loans.

Tuition: Basic Science Program	
Tuition per semester	\$6,500*
*Includes Tuition: \$5,800, Development Fee: \$200, Maintenance Fee: \$200, Library Fee: \$100, Lab Fee: \$200
